4. If your co-authors could not get their certificates or if any name correction exists, kindly verify that their names and affiliation (Name of your Institution) details are entered correctly by yourself in your paper page within EDAS. If necessary, make the corrections in the profile of the respective authors, under their login.

The screenshot shows a table of authors with the following columns: Author name, Author affiliation (edit for paper), Author email, Email, and Delete. Three yellow callout boxes with red borders point to the first three columns:

- Box 1: "These Author Names will be auto fetched by the certificates" points to the Author name column.
- Box 2: "These Institutional details will be auto fetched by the certificates" points to the Author affiliation column.
- Box 3: "These email IDs only should be used by all authors to login in EDAS" points to the Author email column.

The table contains five rows of author data, with some red 'X' marks indicating missing or incorrect information in the name and email fields.

5. **If you are a reviewer**, your certificate will be available under **My Reviews**. Click on the certificate icon and download your certificate.
